Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript keep its relevance in current scenario due to so many reason likewise as we know Adolescents is a stage of Storm where Individual suffer from so many physical and Psychological changes in which sexual changes are one of the significant changes which Adolescents faces that some time leads to many negative consequences.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes title is suitable for subject matter	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract seems good but author need to explain variables of study in abstract so that abstract will become more comprehensive apart from this author can remove extra values of predictors mentioned in abstract which need to explain in result section.	
Are subsections and structure of the manuscript appropriate?	Subsection and structure of Manuscript not well maintained neither fulfilling criteria of journal. Need to include subsection like Sampling method, recommendation from research and future direction can be included in research. As well I would suggest to author to refer research paper publish by Journal "International journal of tropical disease and health" for better understanding of structure and format	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Manuscript followed the correct research design as well as procedure seems good in terms of research problem. Sample size is appropriate as per study which ask large sample size in these kind of studies.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Reference are sufficient but need to review reference format and need to be write with following journal style of reference	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes quality of language seems good and well enough for scholarly publication.	
Optional/General comments	Manuscript need to follow Vancouver style of Reference in whole research paper other than that it need to be organised research paper in more coherent and meaningful way specially discussion part which seems scattered and increase length of introduction to provide existing literature for study. No I didn't found any suspected plagiarism No I didn't find any ethical issues
