

**Review Form 3**

Journal Name:	<a href="#">Journal of Engineering Research and Reports</a>
Manuscript Number:	Ms_JERR_126182
Title of the Manuscript:	<b>Real-Time Data Governance and Compliance in Cloud-Native Robotics Systems</b>
Type of the Article	<b>Research</b>

**Review Form 3**

**PART 1: Review Comments**

<b><u>Compulsory</u></b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript is commendable because it tackles the challenges of regulatory compliance and data governance in a real-time setting, areas that are challenging but essential to the responsible deployment of cloud-native robotics. By advancing understanding in these areas, the work can serve as a valuable reference for researchers and engineers who design, implement, and maintain such systems.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is generally suitable as it conveys the primary focus of the article.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes. No suggestion	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	If possible, clarify the technical components you'll address, such as: The architecture of cloud-native platforms for robotics How data governance frameworks apply in this specific scenario Compliance challenges in distributed or edge-computing setups within robotics This manuscript appears scientifically robust and technically sound because it addresses a complex and timely issue at the intersection of data governance, compliance, and cloud-native robotics, which requires a high level of technical understanding and thorough methodology.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yea	
<b><u>Minor</u></b> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	Yes	
<b><u>Optional/General</u></b> comments	Nil	

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
