Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	We are excited about the potential impact of this report and appreciate the author's commitment to maintaining high standards of scholarly communication. We appreciate the valuable insights the case report offers on this rare clinical association. I suggested constructive insights to strengthen your work's presentation and impact, and I encourage you to consider these points carefully (highlighted in the main manuscript attached) and revise the manuscript accordingly.	
Is the title of the article suitable? (If not please suggest an alternative title)	This case report presents a unique and intriguing clinical scenario that could add value to the literature. With minor revisions for clarity, expanded discussion on clinical implications, and additional emphasis on interdisciplinary management, the manuscript could make a valuable contribution to the field.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The authors can re-assign it to benefit from some structural refinement. <u>Consider adding specific clinical findings, radiological features, and the implications for clinical practice.</u>	
Are subsections and structure of the manuscript appropriate?	We have provided constructive feedback, and we invite the authors to revise their manuscript accordingly. Our comments and suggestions are attached for editors' and authors' reference.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.		
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.		
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The manuscript could benefit from a thorough review of grammar, style, and consistency (a few minor grammatical adjustments and language clarifications).	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
