**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of		
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Please delete all the figure about your finding in the abstract.  Suggested to delete this sentence: "Results further indicate that the moderation model is a superior model than the direct effect model"  I have written detailed comments and suggestions on your manuscripts. Please refer to it for further comments.	
Are subsections and structure of the manuscript appropriate?	In the SECTION 2: THEORITICAL AND EMPIRICAL REVIEW, Section theoretical review; Recommended to write into the same paragraph. No need to separate outline for each theory, because your discussion about these theories is very minimum.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required	This manuscript has sufficient methodology, data sampling and analysis. However, the author should write details about how the collect the data, either online or offline method, duration of the data sampling, and also what are the tools/software that had been used for data analysis. SPSS? SEM? Please write in details on the methodology section.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Suitable	
<b>Optional/General</b> comments	This is a good study and should be considered to accept for publication. However, there are few corrections t should been taken by the author: <ul style="list-style-type: none"> <li>- Amend on the abstract</li> <li>- Find sources that mention financial knowledge and financial literacy is the same thing.</li> <li>- Write more about relationship between FK with retirement planning, before you can postulate your hypothesis.</li> </ul> Other comments/suggestions refer to the manuscript	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
