

Review Form 3

Journal Name:	Archives of Current Research International
Manuscript Number:	Ms_ACRI_125063
Title of the Manuscript:	“EFFECT OF LIQUID MICROBIAL CONSORTIUM ON PHYSIO CHEMICAL PROPERTIES OF RICE FIELD (ORYZA SATIVA) IN A VERTISOL”
Type of the Article	

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> Work is well planned and liquid microbial consortia is one of the important input for organic farming. It reduces the carbon emission in rice field. Yield data and BC ratio is required for choosing the best treatments. Initial Soil Physico- chemical properties need to be given Overall the manuscript is OK 	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is Ok	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	<ul style="list-style-type: none"> The actual value of yield must be given in the abstract for best as well as control treatments, that may be included. Actual name of the microorganisms used in the study may be given in both abstract and materials and methods. 	
Are subsections and structure of the manuscript appropriate?	Experimental details may be changed as Materials and Methods, otherwise it is ok	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	<ul style="list-style-type: none"> BC ratio may be included to select the best treatments. Yield data may be included in the table, as it is given in the abstract Initial soil available nutrients status has to included Plant uptake of major nutrients need be added 	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Yes	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Overall language may be improved	
Optional/General comments	The paper may be accepted after correcting as mentioned above	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
