<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>Review report on the paper entitled "Use of Probiotics and Factors Affecting the Use of Probiotics During Antibiotic Therapy".</p> <ol style="list-style-type: none"> 1. Purpose and the presentation of the paper sound good. 2. Graphical representation is also good but presentation of data statistically is much more authentic in this case. 3. So far the 'Material and method' section is concerned; little information is needed to authenticate the data presented graphically in this paper. <ol style="list-style-type: none"> a. There should be a proper presentation of the questioner made for this survey. b. Survey design: Explain the survey instrument, including question types (open-ended, multiple choice), and rationale behind question wording in the appendix of paper. c. Descriptive statistics: Present key findings using tables to summarize data, including percentages, means, and standard deviations where appropriate. d. Mention the survey software in the methods section. <p>With this few updates this paper will be and informative one for a ready acceptance in the journal.</p>
