Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The topic of the manuscript is quite interesting. Spinal tumours being rare, this article serves to add valuable information on spinal tumours in children. I have not come across much about the current topic. The manuscript is well written and very informative. The pictures provided are very informative making the topic very clear.	
Is the title of the article suitable? (If not please suggest an alternative title)	I found the title suitable for the article.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract looks comprehensive.	
Are subsections and structure of the manuscript appropriate?	Over all sections looks good. In the presentation of the case would be good to add more sections like - clinical presentation, diagnosis ,treatment, prognosis. Could add more about postoperative- how long did patient stay in hospital. Could expand the conclusion a little more. Seems too short and abrupt.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The article seems scientifically correct. The author has mentioned appropriate references. The pictures given makes the topic much clear and	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient, although not very recent. The latest being year 2015. But then given the rarity of the topic, there might be no option.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language is suitable for scholarly communications. I found one grammar mistake/ printing error. In section 2: Presentation of Case A one and half year old girl presented with inability of sit or stand without support since birth. The highlighted word should be to instead of .	
Optional/General comments	Interesting topic, well written. Adding valuable insight to a rare condition.
