

### Review Form 3

Journal Name:	<a href="#">International Journal of Research and Reports in Hematology</a>
Manuscript Number:	Ms_IJR2H_124813
Title of the Manuscript:	Levels of neutrophils, interleukin-10 and tumor necrosis factor-alpha amongst people living with coinfection of hiv and malaria in Benin City, Edo state.
Type of the Article	Original Research Article

#### PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	This manuscript discusses the correlation of TNF1 and IL10 in the co-infection of HIV and malaria. The study has shown relationship between each cytokine and whether the patients have single or co-infections and their relationship with each other.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	yes	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	yes	
<b>Are subsections and structure of the manuscript appropriate?</b>	No, the results should be written in a narrative way and the tables should come after text. The methodology lacks the statistical analyses used. Discussion should be more extensive. Please check the added references.	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	the sample groups are not matched, nor the demographic characteristics of the participants were included.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b> =	Ioannidis, L.J., Nie, C.Q., Ly, A., Ryg-Cornejo, V., Chiu, C.Y., & Hansen, D.S. (2016). Monocyte- and Neutrophil-Derived CXCL10 Impairs Efficient Control of Blood-Stage Malaria Infection and Promotes Severe Disease. <i>The Journal of Immunology</i> , 196, 1227 - 1238. Ioannidis, L.J., Nie, C.Q., & Hansen, D.S. (2013). The role of chemokines in severe malaria: more than meets the eye. <i>Parasitology</i> , 141, 602 - 613. Kalu, O.A., Ukibe, N.R., Ihim, A.C., Onyibor, J.C., & Awalu, C.J. (2023). Assessment of Serum Amyloid Protein A, Tumor Necrosis Factor Alpha and some Liver Enzymes in HIV seropositive with Malaria co-infection in NAUTH Nnewi, Nigeria.	
<u>Minor</u> REVISION comments <b>Is the language/English quality of the article suitable for scholarly communications?</b>	Poor coherence of the document. Not suitable for scholarly communications	
<u>Optional/General</u> comments		

**Review Form 3**

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
