

Review Form 3

Journal Name:	International Journal of Environment and Climate Change
Manuscript Number:	Ms_IJECC_125328
Title of the Manuscript:	Effect of scheduling of irrigation on growth, yield and water use efficiency of linseed (Linum usitatissimum L.)
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Relates the water security, In view of climate change and decreasing water availability needs to increase food production with available resources, this study shows the irrigation scheduling for linseed.	
Is the title of the article suitable? (If not please suggest an alternative title)	Instead of scheduling of irrigation, irrigation scheduling would be better	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract part shows only details of the experiment and adds some information on the importance of the study at the start and the application of the study at last.	
Are subsections and structure of the manuscript appropriate?	Materials and Methodology can be divided into 3-4 subsections such as study area, experiment details, methodology followed, etc.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Important topic for water management perspectives	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Needs to add recent references	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Major	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
