Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	It is an interesting scientific text which help us (the people outside of India) too learn about Fermented Drink with Mahua Flowers	
Is the title of the article suitable? (If not please suggest an alternative title)	YES	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	YES	
Are subsections and structure of the manuscript appropriate?	YES	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	There is a description about the specific plant and the way of producing this drink after a fermentation procedure and at the conclusions there is a description about the characteristics of this drink	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	YES	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	YES	
Optional/General comments	it has to be mentioned that some expressions in the text have to be corrected and written again. For example Wine (according OIV) is produced only from grapes. So it cannot be accepted “ Wine is an "alcoholic beverage" prepared from fermented grapes, berries, apple and other fruits with the help of yeast since thousands of years”. There is no “wine” from apples and other fruits. Also, “Wine has potentially beneficial effects on human health, especially due to the presence of polyphenols and resveratrol”. The effects on human health are caused only by the excessive consumption of wine and not by a normal level – consumption of wine. Notice that wine is consumed by people for the last 5.000 years. ect And Finally the authors have to provide to the readers some data about the consumers of this drink	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
