PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The authors attempted to study the characteristics of Haemophilus influenza which is a type of meningitis which cause severe infection in children younger than 5 years old. People who aren't sick but have the bacteria in their nose and throat can still spread the bacteria, hence its key to study the characteristics.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, the title of the article is suitable. However, the author should take note of the spelling of "Haemophilus"	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is consistent with the study	
Are subsections and structure of the manuscript appropriate?	Yes, the subsections and structure are appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	I have read this work and the subject is good and useful since serious infections can result in long-term health problems and death. The theoretical results and computations are routine work. However, I found plagiarism. Please reduce it.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and most of them are current.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The linguistic quality of this paper needs to be revised. The author may enlist the help of a professional English language editor.	
Optional/General comments	The authors can recommend incorporating the vaccine into the immunization plan for children to help curb the spread of the disease.
