

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_121967
Title of the Manuscript:	Influence of integrated nutrient supply system comprising inorganic fertilizers and organic manures on growth and yield of wheat (<i>Triticum aestivum</i> L.) crop
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript provides valuable insights into the efficacy of integrated nutrient supply systems combining inorganic fertilizers with organic manures and biofertilizers for wheat cultivation. I like this manuscript but add some more details in scientifically and write in proper way. Please focus the abstract on your study and your results. I suggest to focus the manuscript on the scientific results. Properly mention table & figure.	
Is the title of the article suitable? (If not please suggest an alternative title)	The title is adequate.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract are not adequately	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The manuscript is scientifically robust and technically sound due to its rigorous experimental design and systematic approach. The use of a randomized block design with multiple replications ensures that the results are statistically reliable and minimize potential biases. The comparison of various integrated nutrient supply treatments, including both inorganic fertilizers and organic inputs, provides a comprehensive assessment of their impacts on wheat growth and yield.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient but add more recent references. Arrange reference according Journal of Advances in Biology & Biotechnology. Add More Reference.	
Minor REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Not Well written	
Optional/General comments	Arrange in proper format of tables & Figures	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
