

**Review Form 3**

Journal Name:	<b>Microbiology Research Journal International</b>
Manuscript Number:	<b>Ms_MRJI_123052</b>
Title of the Manuscript:	<b>Enhancing Crop Productivity with Biofertilizers: Exploring Multifunctional Benefits</b>
Type of the Article	<b>Review Article</b>

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	This manuscript is valuable for the scientific community as it provides a comprehensive overview of biofertilizers' roles in enhancing crop productivity and promoting sustainable agriculture. It effectively details their benefits in nutrient supplementation, soil health, disease suppression, and abiotic stress tolerance. The clear, thorough presentation underscores their potential impact on modern farming practices.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	<b>Yes</b>	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract of the article is comprehensive.	
<b>Are subsections and structure of the manuscript appropriate?</b>	<b>Yes</b>	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	The manuscript is scientifically robust, offering a detailed and accurate review of how biofertilizers enhance crop productivity and sustainability. It effectively describes the mechanisms and benefits of various biofertilizers, supported by relevant studies and examples. The thorough examination of their roles in nutrient supplementation, soil health, and stress tolerance underscores its technical soundness. The integration of current research reinforces its credibility in the field of sustainable agriculture.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	<b>Yes</b>	
<b>Minor</b> REVISION comments  <b>Is the language/English quality of the article suitable for scholarly communications?</b>	The language and English quality of the article are generally suitable for scholarly communication. The manuscript is clear, well-structured, and effectively conveys complex scientific concepts.	
<b>Optional/General</b> comments		

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
