

## Review Form 1.7

Journal Name:	<a href="#">Archives of Current Research International</a>
Manuscript Number:	Ms_ACRI_119867
Title of the Manuscript:	<b>SURGICAL MANAGEMENT OF ILEOCAECOCOLIC INTUSSUSCEPTION AND INTESTINAL PERFORATION IN A KITTEN</b>
Type of the Article	Case report

### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

[Review Form 1.7](#)

**PART 1: Review Comments**

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Compulsory</b> REVISION comments</p> <p><b>1. Is the manuscript important for scientific community?</b> (Please write few sentences on this manuscript)</p> <p><b>2. Is the title of the article suitable?</b> (If not please suggest an alternative title)</p> <p><b>3. Is the abstract of the article comprehensive?</b></p> <p><b>4. Are subsections and structure of the manuscript appropriate?</b></p> <p><b>5. Do you think the manuscript is scientifically correct?</b></p> <p><b>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</b></p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>Ileocaecocolic intussusception and intestinal perforation in cats are rare but serious conditions requiring immediate surgical intervention. Intussusception occurs when one segment of the intestine telescopes into another, leading to obstruction. Intestinal perforation, on the other hand, is a life-threatening condition that can cause peritonitis. This paper discusses a clinical case of surgical treatment for ileocaecocolic intussusception and intestinal perforation in a kitten. Ileocaecocolic intussusception and intestinal perforation are serious conditions requiring immediate medical attention. Successful treatment is possible with early diagnosis and appropriate surgical intervention. This clinical case demonstrates the effectiveness of surgical methods in treating these conditions in kittens.</p> <p><b>The publication contains interesting and relevant data and can be recommended to the scientific community.</b></p> <p>We recommend changing the name</p> <p>Surgical Management of Ileocaecocolic Intussusception and Intestinal Perforation in a Kitten(Case report)</p> <p><b>Ok</b></p> <p>Please supplement the list with new sources for the last 3-5 years Please add DOI</p> <p><b>ABSTRACT</b> Please correct the text</p> <p><b>INTRODUCTION</b> Please check the links and grammar</p> <p><b>MATERIALS AND METHODS</b> Please enter body weight, breed, and gender. Enter all physical indicators (heart rate, respiratory movements, body temperature). Specify all laboratory research methods, the device's name, the reagent, and the country of manufacture, and decipher all abbreviations. In this section, describe all the stages of the operation (preparation, anesthesia, the end of the operation). describe all the devices and apparatus that were used.</p> <p><b>RESULTS</b> Here, describe the data of hematological and biochemical research, and ultrasound results. Please describe here the results of the performed operation,</p> <p><b>DISCUSSION</b> Please provide links to new sources (for the last 3-5 years). Give a critical understanding of the operation, its advantages, and possible simplifications.</p>	

**Review Form 1.7**

	<b>CONCLUSION</b> Please make a summary conclusion. It should indicate the advantages of the proposed operation.  <b>To add information:</b> <b>CONSENT AND ETHICAL APPROVAL</b>  Fig. 1: Please indicate which probe was used for ultrasound, briefly describe the sonographic picture	
<b>Minor</b> REVISION comments  1. <b>Is language/English quality of the article suitable for scholarly communications?</b>	<b>The article must be revised by a native language speaker.</b>	
<b>Optional/General</b> comments	<b>Grammar!!</b>	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
