

Review Form 1.7

Journal Name:	South Asian Journal of Parasitology
Manuscript Number:	Ms_SAJP_105974
Title of the Manuscript:	Comprehensive educational investigation on the perception of biology students on Dengue fever at Colleges of Education in Enugu State, Nigeria
Type of the Article	Original Research Article

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p>Compulsory REVISION comments</p> <p>1. Is the manuscript important for scientific community? (Please write few sentences on this manuscript)</p> <p>2. Is the title of the article suitable? (If not please suggest an alternative title)</p> <p>3. Is the abstract of the article comprehensive?</p> <p>4. Are subsections and structure of the manuscript appropriate?</p> <p>5. Do you think the manuscript is scientifically correct?</p> <p>6. Are the references sufficient and recent? If you have suggestion of additional references, please mention in the review form.</p> <p><u>(Apart from above mentioned 6 points, reviewers are free to provide additional suggestions/comments)</u></p>	<p>1- Yes, this manuscript has some importance to public health field as it evaluated the knowledge and awareness of a certain population section against the danger of dengue fever.</p> <p>2- Yes, the title is suitable but I recommend slightly changing it to "A comprehensive educational investigation of the perception of biology students about Dengue fever at Colleges of Education in Enugu State, Nigeria".</p> <p>3- Yes, the abstract is comprehensive but I recommend including study findings as numbers in the result subsection of the abstract.</p> <p>4- Yes, the manuscript is structured in the appropriate way.</p> <p>5- Yes, the manuscript looks correct from scientific perspective.</p> <p>6- Yes, the used references are recent and sufficient but I recommend adding citations to any used method or equation in the materials and methods section.</p> <p>7- For the keywords section, I recommend adding the word "Knowledge".</p> <p>8- In the introduction part, authors are advised to elaborate the following sentence "They adopted various preventive measures to escape from mosquito bites only during the night but Aedes mosquitoes will bite only at that time".</p> <p>9- Authors are advised to write the study aim by the end of introduction.</p> <p>10- In materials and methods section, authors should state the date at which sample was collected.</p> <p>11- In materials and methods, authors should replace the word "diarrhea" with "dengue fever" in the following sentence "because the study is aimed at collecting data from students considered representative of the population in assessing students' knowledge level of diarrhea".</p> <p>12- In the results section, authors are advised to use a better way to describe standard deviation instead of ($\geq 0.5 \leq 1$).</p>	
<p>Minor REVISION comments</p> <p>1. Is language/English quality of the article suitable for scholarly communications?</p>	<p>Writing quality is generally good.</p>	
<p>Optional/General comments</p>
