PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This paper could be of some interest to the regional scientific community if the list of the species found during the survey would have been made explicit.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	Only in part	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The paper lacks an explanation of the scopes (why measuring autocorrelation? why should we not expect negative autocorrelation in a patchy environment?), of the methods (how were abundances counted?), exposition of results (checklists, database with abundance distributions, tables...) and the discussion is wanting (what other similar studies were considered?)	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Insufficient: previous analogous studies are nowhere cited	
Minor REVISION comments	Yes	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments
