

Review Form 3

Journal Name:	Journal of Advances in Biology & Biotechnology
Manuscript Number:	Ms_JABB_123367
Title of the Manuscript:	Impact of integrated nutrient management on soil nutrient status and yield in garlic (<i>Allium sativum</i> L.)
Type of the Article	Original Research Article

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This manuscript tried to emphasis integration of nutrient (organic, inorganic and biofertilizer) for sustainable garlic production and maintain soil nutrient availability I really appreciate the author for their efforts.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes, titles is suitable for how they tried to explain the results and recommendation	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Partly comprehensive, but need to amend according to comment provided in the manuscript review	
Are subsections and structure of the manuscript appropriate?	The results section needs to be merge in the paragraphs (soil section and crop yield/ economy section) and discussion should be provided in last paragraphs with citation of recent highlights	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is typical which describe the general structure, however, it would be better if you mention the problems statement of research study, rationale and justification why nutrient integration is necessary for garlic production.....	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are not sufficient Citation should follow the author guideline (use numbering in the citation section. Eg. [1], [2])	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Need to restructure some sentences which need to correct grammatically and should be written concisely	
<u>Optional/General</u> comments	Write detail methodology adapted for soil sampling after harvesting/ trial termination Crop yield measurement methods Which are the variables used to calculate cost of production Methods for benefit cost ratio???
