<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>The paper titled "Dynamics of Salinization of Agricultural Areas in Koba (Boffa)" is a basic investigation that requires more input. The manuscript lacks any accuracy assessment of the created land use maps. Without accuracy, it is not suitable to obtain any scientific output in GIS and remote sensing-based studies. However, the researcher should improve the manuscript and resubmit it. Additionally, I suggest having the manuscript proofread by a native English speaker to improve grammar and wording, as well as to polish some sentences. I have included my suggestions in the manuscript itself.</p>
