**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	The article indeed reports significant contribution to the teachers' professionalism area. The literature is quite extensive; however, minor revision is needed on reporting the qualitative findings. The findings were reported in quantitative manner which contributed to confusion and lack of clarity.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	I would suggest restructuring the title to: <i>The Influence of Teacher Professionalism on the Alignment between Syllabus Content and Classroom Instruction: A Case Study of Selected Secondary Schools in Mvomero Distric</i> to demonstrate clarity and clear interpretation of the study.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is well-articulated. Please improve this sentence as it neglects the qualitative reporting style. ....It showed a significant positive correlation between teacher professionalism and the alignment of classroom instruction with syllabus content. Higher levels of professionalism among teachers lead to better alignment.....	
<b>Are subsections and structure of the manuscript appropriate?</b>	Please consider moving the conclusion section to be at the end of the article, right before suggestion for future study.	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	The article demonstrates substances in teachers' development research area and robustness in data collection and analysis of qualitative analysis. The way of reporting the qualitative analysis report can be improved in terms of format of reporting and standard of writing.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b> :	Yes. However, strong recommendation to improve the reference section. Most references are not aligning with APA 7 <sup>th</sup> edition: <a href="https://owl.purdue.edu/owl/research_and_citation/apa_style/apa_formatting_and_style_guide/apa_changes_7th_edition.html">https://owl.purdue.edu/owl/research_and_citation/apa_style/apa_formatting_and_style_guide/apa_changes_7th_edition.html</a> See attached document for some examples of completed reference.	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Suitable and well-demonstrated.	
<b>Optional/General</b> comments	The rest of the comments and suggestions are listed in track-change in the document. Please address and do necessary correction as suggested.
