PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript is beneficial in depicting the variability extent and magnitude, but for full length paper need to be supported by additional data of correlation and path coefficient. However the manuscript is well-written.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	yes	
Are subsections and structure of the manuscript appropriate?	Appropriate but need more data	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Variability especially in orchids is one of the major issue which need further conservation. With variability addition information of direct and indirect path coefficient details would add quality to paper.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Up to some extent, many reviews mentioned in the reference are missing.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	yes	
Optional/General comments	Need revision before publication as full length paper or can be accepted as short communication.
