

Review Form 3

Journal Name:	Asian Journal of Biology
Manuscript Number:	Ms_AJOB_121176
Title of the Manuscript:	Genetic growth performance of lysine supplementation in diet of Large White pigs in tropical environments
Type of the Article	Research Paper

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</p>	<p>The study on lysine supplementation in the diet of Large White pigs in tropical environments is crucial for optimizing growth performance and enhancing feed efficiency. Understanding genetic responses to lysine can lead to improved pig production, economic gains for farmers, and more sustainable livestock practices in tropical regions.</p>	
<p>Is the title of the article suitable? (If not please suggest an alternative title)</p>	<p>Yes it is suitable but there is requirement of proper framing Enhancing Genetic Growth Performance in Large White Pigs: The Role of Lysine Supplementation in Tropical Conditions</p>	
<p>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</p>	<p>There is no requirement of sub headings in abstract correct it and reframe it.</p>	
<p>Are subsections and structure of the manuscript appropriate?</p>	<p>Yes</p>	
<p>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</p>	<p>The manuscript presents a well-conducted study on the genetic growth performance of lysine supplementation in the diet of Large White pigs in tropical environments. The research question is clearly defined, and the methodology is appropriately designed to address the objectives. The use of a controlled experimental design, along with a representative sample size, ensures that the results are reliable and valid. "It should more effective as there is some corrections to be done in the format of heading and in write up finding portions.</p>	
<p>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</p>	<p>Major correction in the reference portion the format of reference was incorrect, and author should have more reference. Correct the formatting sincerely</p>	
<p><u>Minor</u> REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>There is so much grammatical need to work on that on serious mode.</p>	
<p><u>Optional/General</u> comments</p>
