

### Review Form 3

Journal Name:	<a href="#">Asian Research Journal of Agriculture</a>
Manuscript Number:	Ms_ARJA_123689
Title of the Manuscript:	Response of Panchgavya and micro-nutrient (Zinc and Boron) on Growth Attributes and Yield of Chickpea ( <i>Cicer arietinum</i> L.) under Irrigated Condition
Type of the Article	

#### **General guidelines for the Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

<https://r1.reviewerhub.org/general-editorial-policy/>

#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

## Review Form 3

### PART 1: Review Comments

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b>	The manuscript includes using application of organic source and some micronutrient like (Zn and B) by foliar spray is beneficial for better yield and quality production of chickpea crop, commands a great significance in maintaining a number of physiological, biochemical, yield and quality parameters by maintaining growth and relative water content, increasing nitrogen and protein content, increasing the grain zinc and boron content that deals with mineral deficiency problem.	
<b>Is the title of the article suitable? (If not please suggest an alternative title)</b>	I Suggest an alternative title: Study Effect of Foliar Spray of Panchgavy and Some Micro-nutrient on Growth Attributes and Yield of Chickpea ( <i>Cicer arietinum</i> L.) in Soils of Sand Loam.	
<b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b>	The abstract is comprehensive	
<b>Are subsections and structure of the manuscript appropriate?</b>	The manuscript is quite	
<b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b>	The manuscript is accepting both technically and scientifically, as it is well-written, though it does require some improvements. It also addresses an important issue: using application of organic source and some micronutrient, Using an organic source is important for preserving the environment, maximizing productivity and reducing costs Also determining the best rate of various and overlapping micronutrient additions with the organic side.	
<b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b>	References are old and its need to update	
<b>Minor</b> REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes	
<b>Optional/General</b> comments	There are some corrections that researchers should pay attention to: <ul style="list-style-type: none"> <li>▪ It is preferable to place the production schedule at the beginning of the results, followed by the other characteristics of yield.</li> <li>▪ It is also advisable to conduct an analysis of the plant to determine uptake of boron and zinc. Additionally, it is recommended to mention the analysis of the Panchagavya.</li> <li>▪ Mention of soil analysis methods.</li> <li>▪ Have you manufactured a Panchagavya or commercial product? It is preferable that it be analyzed and its effect on plants and soil studied</li> <li>▪</li> </ul>	

### Review Form 3

#### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
