**PART 1: Review Comments**

<b><u>Compulsory</u></b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<p><b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>This manuscript is a significant contribution to the scientific community, particularly in the field of physical therapy. It thoroughly evaluates the effectiveness of neural mobilization, providing clear evidence of its benefits in reducing pain and disability in low back pain patients. The study is scientifically robust and technically sound, with a well-structured methodology and comprehensive analysis of results. I commend the authors for their detailed approach and recommend minor revisions for clarity and coherence.</p>	
<p><b>Is the title of the article suitable? (If not please suggest an alternative title)</b></p>	<p>The title is suitable and accurately reflects the content of the manuscript.</p>	
<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.</b></p>	<p>The abstract is comprehensive. However, adding specific numerical results could enhance its informative value.</p>	
<p><b>Are subsections and structure of the manuscript appropriate?</b></p>	<p>The structure is appropriate, with clear subsections that guide the reader through the study's various components.</p>	
<p><b>Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>The manuscript is scientifically robust, with a sound methodology and thorough analysis. It effectively demonstrates the hypoalgesic effects of neural mobilization and its impact on functional ability.</p>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p>The references are sufficient and recent. No additional references are necessary.</p>	
<p><b><u>Minor</u></b> REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>	<p>The language quality is suitable for scholarly communication, though a final proofreading for minor grammatical errors is advised.</p>
