| Journal Name: | Journal of Advances in Medicine and Medical Research |
| Manuscript Number: | Ms_JAMMR_123867 |
| Title of the Manuscript: | EFFECTIVENESS OF NEURAL MOBILIZATION TO IMPROVE PAIN AND DISABILITY IN RADIATING AND NON-RADIATING LOW BACK PAIN PATIENTS – A SYSTEMATIC REVIEW |
| Type of the Article | |

General guidelines for the Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

Review Form 3

PART 1: Review Comments

| Compulsory REVISION comments | Reviewer's comment | Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|--|---|--|
| Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part. | Lower back pain is a common problem. Many people prefer non-invasive methods, such as physiotherapy. Neural mobilisation is a simple, effective technique for improving mobility and decreasing pain. | |
| Is the title of the article suitable? (If not please suggest an alternative title) | The title is too long and complicated. IMPROVING PAIN AND DISABILITY IN LOWER BACK PAIN WITH NEURAL MOBILIZATION – A SYSTEMATIC REVIEW | |
| Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here. | The background section of the abstract requires a sentence on how neural immobilisation achieves its goal in medical terms. How does this therapy help the nerve improve its function? | |
| Are subsections and structure of the manuscript appropriate? | Yes | |
| Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part. | This systemic review incorporates all the critical studies in this field to assess the success of this form of treatment for LBP. The studies are relevant and the latest. They also compare the therapy in question with other non-invasive therapies. The author thoroughly searched to ensure only the worthiest studies were selected. | |
| Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. | References are relevant to the theme of the paper. | |
| Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications? | There are many grammatical mistakes, the writing flow is not synchronous, and the choice of words in sentences is not accurate. Please use software to correct the grammatical errors and improve the writing flow. | |
| Optional/General comments | The results and discussion section should be more comprehensive and in-depth in comparing the various studies conducted and a comparison with other non-invasive therapy. The demography of the subjects in the studies is also essential. | |

Review Form 3

PART 2:

| | Reviewer's comment | Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i> |
|---|--|---|
| Are there ethical issues in this manuscript? | <i>(If yes, Kindly please write down the ethical issues here in details)</i> | |
