**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	In the present situation, this topic has great significance. Currently, due to various manmade factors, the pollinator community is under a great threat. That's why, to sustain the social needs, it is necessary to conserve the pollinator diversity through eco-friendly management strategies.	
Is the title of the article suitable? (If not please suggest an alternative title)	Although, in the title 'challenges' faced by pollinators is mentioned. However, in the content this part is not well described. It needs a separate heading for this section. So, my proposed title is 'Sustaining Pollinator Diversity through Eco-friendly Management Strategies'.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Yes	
Are subsections and structure of the manuscript appropriate?	According to the title it needs a separate sub-section for: Major reasons behind the decline in pollinator diversity/ Major challenges faced by the pollinators	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript needs some work. Authors need to check the grammatical errors in the sentences. Some information needs rectification. Authors need to mention the proper sources for the data provided. Citation style also needs to be taken care of. There is also some irrelevant information that needs to be removed.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Authors can cite a few more recent references on the recent condition/stats of the pollinator decline. As a review paper, some more references can be added.	
Minor REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	English quality needs some corrections.	
<b>Optional/General</b> comments	Corrections are mentioned in the manuscript.
