

**Editor's Comment:**

I went through original as well as revised paper along with reviewer comments.

I have also noted the TITLE is grammatically incorrect and needs to be corrected. There are many sentences which have low quality English structure. Please kindly ask one of our editors who is native English speaker to correct language errors also.

The article otherwise is good for publication after review again.

**Editor's Details:**

Dr. Mohan Khadka  
Associate Professor, Nobel Medical College Teaching Hospital, Nepal.
