Journal Name:	Asian Journal of Agricultural Extension, Economics & Sociology
Manuscript Number:	Ms_AJAEES_121905
Title of the Manuscript:	Preservation of Biodiversity and Sustainability of Ecosystem
Type of the Article	

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	In the agriculture context, the problem of the biodiversity is focused in the present study. The main problematic influences were identified and analysed, influencing the biosphere, the general life on earth, and allowing the authors to provide valuable traits for breeding and variety improvement. Items like "Nutrition and Health" and "Climate Change" are well performed.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract text is sufficient clear.	
Are subsections and structure of the manuscript appropriate?	Item "Introduction" must be segmented as an enormous paragraph is presented. Don't use a so large title of a subheading "2.1 Agricultural sectors are ...". "Picture- 1 Major" and "Table-1 Major" are both tables? Uniform this. Don't present 5.1, to 5.5 as subheadings but just bullets. A better organization of haedings and subheadings must be considered.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study analyses the biosphere aspect regarding the main influences that must be followed in all the would with attention. This study permits to better understand the current state of the problem, some relevant recommendations were carried out, that are useful to the agriculture community.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Ok, sufficient.	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	ok	
<u>Optional/General</u> comments	A relative deep rewritten of the text must be applied in order to obtain an improved scientific manuscript
