Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The study is interesting and scientific, however, the topic does not capture the main aspect of the study. In addition, the problem statement is not well-established	
Is the title of the article suitable? (If not please suggest an alternative title)	No, (Examining the attributes of fertilizer dealer in Kerala/and the motivation for participating in INM)	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Adding of the main policy recommendation	
Are subsections and structure of the manuscript appropriate?	Sub-section 3.1 – 3.18 are not necessary, a single sub-section is enough while the results can be written in paragraphs	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study is scientific in the sense that it uses the right tools to collect the appropriate data to enhance our understanding of the problems and how to address them. However, the descriptive analysis used is too simple to effectively measure how the dealers' attributes motivate them in participating in the programme. Other relevant tools would have been adopted.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are recent but not sufficiently reviewed to state the problem statement.	
Minor REVISION comments	Yes with the suggested corrections	
Is the language/English quality of the article suitable for scholarly communications?		
Optional/General comments
