

Review Form 3

Journal Name:	Asian Journal of Advanced Research and Reports
Manuscript Number:	Ms_AJARR_121949
Title of the Manuscript:	An Evaluation of Anti-hyperlipidemic Activity of Ethanolic extract of Terminalia arjuna on High Fat Induced Hyperlipidemic Rat Model
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The main aim of the present study is to assess the effect of Ethanolic extract of Terminalia Arjuna on Lipid profile of albino rats fed with Hyperlipidemic diet. The present findings demonstrated the hyperlipidemic effect of Terminalia arjuna on rat models. This plant can be used as cardio protective due to the presence of various bioactive compounds such as phenolics, flavonoids, tannins etc. To explore the precise mechanism of action of specific biological active principles, further processing of the ethanolic fraction of Terminalia arjuna is required	
Is the title of the article suitable? (If not please suggest an alternative title)	No Effect of ethanolic extract of <i>terminalia arjuna</i> on high fat induced albino rats fed with hyperlipidemic diet	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Structured Abstract Recommended showcasing the IMRAD format	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study revealed that Terminelia arjuna might be used as an antihyperlipidemic herb. In the future, rigorous and systematic research into plant chemistry and pharmacology may reveal a new dimension that will help in the discovery of antihyperlipidemic medications from this plant in cholesterol and creatinine level control to preserve efficient kidney and liver function	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. :	References are not as per AJARR format. Cite references properly. Visit https://journalajarr.com/index.php/AJARR author instructions. Please write references by using bullets and number options. Most of the references are incomplete with chapter name, article title name, journal name etc. Cite date of browsing in the references taken from internet.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Yes	
Optional/General comments	Manuscript is not as per AJARR author instructions. Please revise manuscript. There are plenty of spelling and grammatical mistakes throughout the manuscript. Phytochemical Screening of the drug? Justification of using Atorvastatin over Rosuvastatin????	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
