Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The authors have worked hard for the study and tried well in writing the manuscript. However, I have a few concerns. Tuberculous meningitis cant be ruled out in absence of gene expert study. It is the most common organism to occur in HIV patients usually. There is no record of cerebrospinal fluid study . There have been very few brain imaging, which creates a concern of missing many infections of the brain. The language and review of literature of the manuscript needs gross improvisation.	
Is the title of the article suitable? (If not please suggest an alternative title)	Needs correction. Etiologies and factors associated with febrile consciousness disorders in people living with HIV AIDS (PLHA): a hospital based observational study from Guinea	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract is as per the manuscript. However, the data needs correction	
Are subsections and structure of the manuscript appropriate?	Yes. The individual senetnces are not continuous. Kindly take help of other manuscripts in constructing the present article	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be	There is gross discrepancy regarding the methodology and results. The completeness of the study is not present.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are less and inadequate.	
<u>Minor</u> REVISION comments	Needs improvisation at some areas.	
Is the language/English quality of the article suitable for scholarly communications?		
<u>Optional/General</u> comments		

Review Form 3
