

Editor's Comment:

I have gone through the suggestions given by the associate editors but it was not reflected in the modified manuscript one of the editors raised points about the references being modified to add recent references which was not followed. Another editor was suggested to curtail the conclusion which was also not followed. So you have to ask the author to modify the manuscript as per the editor's suggestion or to reject it. I suggest revising the manuscript considering the editor's point.

Editor's Details:

Dr. Rahul C. Ranveer
Associate Professor, PG Institute of Post Harvest Technology and Management, Dr. Balasaheb Sawant
Konkan Krishi Vidyapeeth, India.
