

### Review Form 3

Journal Name:	<b>Journal of Advances in Biology &amp; Biotechnology</b>
Manuscript Number:	<b>Ms_JABB_123137</b>
Title of the Manuscript:	<b>Green Synthesis of Nanomaterials with Phytochemicals for Treating Multidrug Resistant Bacteria</b>
Type of the Article	<b>Research</b>

#### **General guidelines for the Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guidelines for the Peer Review process, reviewers are requested to visit this link:

<https://r1.reviewerhub.org/general-editorial-policy/>

#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1.reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1.reviewerhub.org/benefits-for-reviewers>

### Review Form 3

#### **PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	As the resistivity towards antibiotics is increasing in human beings its necessary to study about the reasons and also study on the increase in immunity towards diseases and also effective medicinal approach. Accordingly the work has been done in identifying the resistivity to various antibiotics and modifying the medicines by using green synthesised nanoparticle for treating the multidrug resistant bactreia . Manuscript is upheld for the innovative work	
Is the title of the article suitable? (If not please suggest an alternative title)	Green Synthesis of Nanomaterials with Phytochemicals for Treating Multidrug Resistant Bacteria sounds to be technically good as the plant extracts are being used and nanoparticles adopted for studies.	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is very precise but let the conclusions be very specific with the results obtained.	
Are subsections and structure of the manuscript appropriate?	Yes, its seen that all the subsections and structure look into the technical viability accordingly.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Any abbrevations being written like NCBI, PCR be written completely for the first time and later be abbreviated . Results be bifurcated with respect to the various materials used and separate tabled be prepared and not included in a common tale. Rest of the contents look to be as per the scientific write-up.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Refernce shown in paper is satisfactory, if possible refer to some more reputed journal and add wherever essential.	
<b>Minor</b> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Language is acceptable provided some sentences are used with full point though the tatement continues.check needed for the language write up	
<b>Optional/General</b> comments	Overall acceptable paper	

### Review Form 3

#### **PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
