

**Editor's Comment:**

The paper is suitable for publication, after some changes/additions, mainly with regard to its methodology (since it is a review paper)

- (i) 2 research questions could be added in Method
- (ii) How the search was done? (e.g., using which keywords, and Boolean operators)
- (iii) Which were the inclusion and exclusion criteria for the search?

The points that are not answered in the manuscript, should be mentioned within the study's limitations.
