<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>		
<p>Optional/General comments</p>	<p>In developing countries like ours , it is not un common to encounter adult TOF patients. In the current article , the author has presented a case of adult TOF which was diagnosed late. I would like to have answers to these questions</p> <ol style="list-style-type: none"> 1 . Author has not mentioned the size of pulmonary valve . wass it possible to preserve the pulmonary valve. we usually go for pulmonary valve implantation or RV to PA conduits in adult TOF. 2 , Author has mentioned that infundibular approach was carried out for VSD closure and RVOT muscle resection, but the current trend is to use right atrial and pulmonary artery approach to prevent ventricular scar and arrythmias later on. 3. Was the pericardial patch for VSD closure fixed in glutaraldehyde or un treated pericardium was used
