

Review Form 3

Journal Name:	International Journal of Plant & Soil Science
Manuscript Number:	Ms_IJPSS_124241
Title of the Manuscript:	Effect of Different Potting Media and polybag sizes on Seeds Germination & root growth of rough lemon (Citrus jambhiri Lush.) in Nursery
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This will add additional information in the existing knowledge on quality seedlings production. It highlights importance of potting media and its ingredients on growth and seed germination. These results will be useful to nursery people and lemon growers.	
Is the title of the article suitable? (If not please suggest an alternative title)	Effect of different growing Media and polybag size on Seeds Germination and root growth of rough lemon (Citrus jambhiri Lush.) in Nursery conditions	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract need to revise comprehensively and shorten its length	
Are subsections and structure of the manuscript appropriate?	Corrections were highlighted. Sub-titles need to be modified.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript is scientifically robust and technically sound. However, instead of mean alone, it may be given mean +- Sd. References are not cited properly in the text and need to follow uniform pattern. Either one use growing media or potting media throughout text. Methodology for collection of root growth is missing. Need to be added. Discussion on physioco-chemical properties of growing media may be discussed with results of germination and root growth. Shoot growth along root growth may be considered for logical conclusions.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Sufficient. References are not cited properly in the text and need to follow uniform pattern.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Minor revision required	
Optional/General comments	Revised manuscript may be accepted for publication
