<b>Compulsory</b> REVISION comments	<b>Reviewer's comment</b>	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<p><b>Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.</b></p>	<p>Tuberose flowers are highly valued in the floral industry for their fragrance and beauty. Integrated Nutrient Management combines organic and inorganic fertilizers, which can significantly improve the growth parameters of tuberose, such as plant height, number of leaves, and overall biomass. This will lead to better flower production and yield.</p> <p><b>SEE ATTACHMENT</b></p>	
<p><b>Is the title of the article suitable? (If not please suggest an alternative title)</b></p>	<p>Yes</p>	
<p><b>Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Table may be placed in landscape orientation</li> <li>• I think the sections like materials and methods, results and discussion are too short.</li> </ul>	
<p><b>Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.</b></p>	<p>Yes</p>	
<p><b>Minor</b> REVISION comments</p> <p><b>Is the language/English quality of the article suitable for scholarly communications?</b></p>	<p>Try to improve the language of the manuscript.</p>
