

Review Form 3

Journal Name:	Journal of Scientific Research and Reports
Manuscript Number:	Ms_JSRR_124132
Title of the Manuscript:	Effect of neem leaf powder supplementation in casing mixture on the growth and yield parameters of white button mushroom [<i>Agaricus bisporus</i> (Lange) Imbach]
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Green mould caused by <i>Trichoderma harzianum</i> is a serious threat in white button mushroom [<i>Agaricus bisporus</i> (Lange) Imbach] cultivation causing heavy crop losses. The present experiment was conducted to manage green mold fungus <i>Trichoderma harzianum</i> using neem leaf extracts.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes the Title is Suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The future prospects has to be linked in abstract to understand the importance of the Article	
Are subsections and structure of the manuscript appropriate?	Yes but Introduction is incomplete, the connection has to be made for the current study and previous study	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	From present study, it was concluded that the tested botanical it was found that the neem leaf more or less inhibited the growth of <i>Trichoderma harzianum</i> , the probable reason might be the presence of anti-microbial properties in neem leaf which inhibited the growth green mould disease cause by <i>Trichoderma harzianum</i> .	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	More references need to be added	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Minor Revision	
Optional/General comments	<p>Introduction: The Introduction lacks the connection between Current study and Previous Studies The importance of neem leaf extracts needs to be added The connection has to be made with other methods of control of <i>Trichoderma harzianum</i></p> <p>The discussion: The written discussion on current study is not sufficient enough to understand the current study so need to be elaborated more.</p> <p>References: the format of references quoted in the text should be made uniform according to the journal format</p>	

Review Form 3

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
