

Review Form 3

Journal Name:	Asian Journal of Biotechnology and Bioresource Technology
Manuscript Number:	Ms_AJB2T_123854
Title of the Manuscript:	Isolation and Molecular Characterization of Industrially Significant Bacteria Obtained from Rice-Husks Dumping Sites
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I liked the study because it is practical and novel and useful for utilizing Rice husk is an agricultural waste for industrial and environmental applications ,and its results are promising for future practical application	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes it is suitable	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract scientifically discussed the whole subject and provided all information required but the results need more description and evaluation in the abstract.	
Are subsections and structure of the manuscript appropriate?	The manuscript s subsections are appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It is novel to the best of my knowledge and used an agricultural waste for industrial and environmental applications which is practically clever method of utilizing waste product to produce useful industrial and environmental applications, so it is useful for environment and for industrial purposes.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references are sufficient and recent but few of the need correction for example reference number 7 the year is not mentioned and reference number 8 and 13 has no paper number, and reference number 10 need rewriting.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	The language quality of this article is correct and suitable for scholarly communications.	
Optional/General comments	Practical and environmentally useful subject of the article with novelty.it used Rice husk's potential as a low cost substrate for microbial fermentation.
