PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Evaluating organic manure, inorganic fertilizers, and bio-inoculants on rice yield is vital for sustainable farming. This approach improves soil health, maximizes yield, and reduces environmental impacts by balancing quick nutrient availability from fertilizers with long-term soil benefits from organic inputs and bio-inoculants. It enhances crop resilience and reduces micronutrient deficiencies.	
Is the title of the article suitable? (If not please suggest an alternative title)	yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Delete the part mentioned in the manuscript comments	
Are subsections and structure of the manuscript appropriate?	Under results and discussion, write the growth parameters first then followed by yield parameters	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The data is ok but details of treatments need to be corrected. It should follow the same trends indicating the treatments. Data on growth parameters should be discussed first.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form. -	Need to add more similar findings to support the results. Remove the bold in the citation.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	It can be improved
