Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The area of research on ecofriendly approach for disease control is interesting but the material and method, data analysis and discussion need to be seriously improved. Word of Key words have to be different with title, scientific name should be Italic. There is not enough detail for experiment the disease recording and rat. The control used and the ANOVA of result analysis. Almost there is any discussion. I believe the manuscript need major revision.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Moderately recent, there are any reference after 2017.	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	Need improvements
