Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_123749
Title of the Manuscript:	Knowledge, Attitude and, Practice of Retail Pharmacist Regarding Gouty Arthritis in Community Pharmacies in Lahore
Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

<u>Compulsory</u> REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This article provides valuable insights into the knowledge, attitudes, and practices of retail pharmacists regarding gouty arthritis, a crucial topic given the rising incidence of this condition. It offers practical implications for improving patient care and pharmacist education in community pharmacies. The study's focus on Lahore adds regional relevance and can inform local healthcare strategies. Additionally, it addresses a gap in existing literature by examining real-world practices and challenges faced by pharmacists. Including this article in our journal will contribute to advancing the field and supporting better health outcomes in the community.	
Is the title of the article suitable? (If not please suggest an alternative title)	Yes	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No	
Are subsections and structure of the manuscript appropriate?	Yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This manuscript demonstrates scientific robustness and technical soundness through its rigorous methodology and comprehensive analysis of data. The study employs well-established research methods to assess the knowledge, attitudes, and practices of retail pharmacists regarding gouty arthritis, ensuring reliable and valid results. The research design, including sample selection and data collection techniques, adheres to high standards, reducing bias and enhancing the credibility of the findings. Additionally, the manuscript is grounded in relevant literature and incorporates appropriate statistical analyses, further validating its conclusions. Overall, the manuscript contributes valuable insights based on a methodologically sound approach, supporting its scientific integrity.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	No	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	It may be accepted	
<u>Optional/General</u> comments	No
