

Review Form 3

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_124222
Title of the Manuscript:	Investigate the Public Awareness and Utilization of Health Screening services offered by Community pharmacies.
Type of the Article	Original Research Article

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Manuscript is informative as this shows information about use of community pharmacists as service providers involved in health screening. It shows acceptance of public on use of community pharmacy for health screening. Thus from this study, community pharmacy can be used to reach more persons in the community in providing life saving health screening.	
Is the title of the article suitable? (If not please suggest an alternative title)	Title is suitable. However the word "Investigate" can be replaced with "Investigating" to match the statement	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Abstract is comprehensive needing minor corrections as tracked in the body of the work	
Are subsections and structure of the manuscript appropriate?	Structure is good. However the first 2 paragraphs in discussion part discussing types of questionnaire may not be necessary	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Study is scientifically correct but needs further revision. Background describes the usefulness of community pharmacy in health screening. Methodology describes means of data collection and analysis while result describes the result using appropriate tables. Discussion section should have focused on discussing result but dived a lot into the describing types of questionnaire which may not be necessary	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	Reference contains a lot of very old references as far as 1990s. 10 years reference except where no other option is available	
Minor REVISION comments Is the language/English quality of the article suitable for scholarly communications?	There is a lot of English grammatical errors especially with punctuation. Sample of such corrections were made in the body of the work and can be used for further corrections	
Optional/General comments
