Type of the Article	Original Research Article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	<ol style="list-style-type: none"> 1. It examines an under-researched area in the Pakistani context. 2. The methodology is sound, using a validated questionnaire and appropriate statistical analysis. 3. The findings provide actionable insights that could help improve utilization of pharmacy-based health screenings. 4. The results have implications for pharmacy practice and public health policy in Pakistan and potentially other developing countries 	
Is the title of the article suitable? (If not please suggest an alternative title)	It is suitable and clearly conveys the focus of the study	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	it could be slightly more concise to improve readability.	
Are subsections and structure of the manuscript appropriate?	The manuscript has an appropriate structure with clear subsections	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	The study appears scientifically robust and technically sound	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references seem sufficient and recent, drawing on relevant literature in the field of community pharmacy practice	
<u>Minor</u> REVISION comments Is the language/English quality of the article suitable for scholarly communications?	the English is generally suitable for scholarly communication, though there are some minor grammatical errors and awkward phrasings that could be improved through careful editing	
Optional/General comments	The manuscript investigates public awareness and utilization of health screening services at community pharmacies in Pakistan, highlighting their role in promoting preventive healthcare. It reveals that while these services are generally viewed as convenient and satisfactory, their actual usage is limited due to barriers such as lack of awareness and preference for traditional medical consultations. The findings underscore the need for enhanced public education to increase the utilization of these valuable health services.
