PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	I would like to publish the paper in the reputed journal. The paper has been written with the findings of original research works. I think the findings will be useful for the researchers, progressive farmers and other stakeholders for commercial cultivation of dragon fruit in India and other countries of the world.	
Is the title of the article suitable? (If not please suggest an alternative title)	Mostly suitable but should be modified a little bit as per instruction	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Sentence of the experimental location should be reduced. Focus should be given on justification of the study, treatments and results/findings.	
Are subsections and structure of the manuscript appropriate?	Should be added the data of GPS location and soil properties.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	It seems to me that the manuscript is scientifically correct but the structure of the sentences should be checked carefully. I feel that the manuscript is scientifically robust and technically sound because the experimental results have been correlated and justified with the previous findings of other researches.	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	The references should be rewrite as per the journal format and updated.	
Minor REVISION comments	Yes	
Is the language/English quality of the article suitable for scholarly communications?
