

### Review Form 3

Journal Name:	<b>Journal of Advances in Microbiology</b>
Manuscript Number:	<b>Ms_JAMB_122808</b>
Title of the Manuscript:	<b>Biopesticide effect of beneficial microorganisms' formulation against Phytophthora infestans (mildew) and Aternaria spp. (alternariosis) on Capsicum annuum L. in field</b>
Type of the Article	

#### **PART 1:** Review Comments

<b>Compulsory</b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	This research must be strengthened by previous research, especially in vitro scale research, so that we can predict the role of microorganisms.	
Is the title of the article suitable? (If not please suggest an alternative title)	<ol style="list-style-type: none"> <li>1. Enrichment of biopesticides using potential microorganisms to control Phytophthora infestans (mildew) and Aternaria spp. (alternariosis) on Capsicum annuum L. in field</li> <li>2. Fermentation of bran using Trichoderma harzianum and Metharizium anisopliae starters to control Phytophthora infestans (mildew) and Aternaria spp. (alternariosis) on Capsicum annuum L. in field</li> </ol>	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	The abstract needs to include research methods concisely and clearly	
Are subsections and structure of the manuscript appropriate?	More specific discussion is needed, especially on the substance of the main problem.	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Applicatively interesting, but lacking data support to confirm the influence of microorganisms or the influence of phytochemicals from the fermentation of ingredients	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References need to be added for at least the last 5 years	
<u>Minor</u> REVISION comments		
Is the language/English quality of the article suitable for scholarly communications?	Pretty good, need consistency in writing	
<u>Optional/General</u> comments	The discussion needs to be more specific and substantive
