#### **Important Policies Regarding Peer Review**

Peer review Comments Approval Policy: <https://r1-reviewerhub.org/peer-review-comments-approval-policy/>

Benefits for Reviewers: <https://r1-reviewerhub.org/benefits-for-reviewers>

**Review Form 3**

**PART 1: Review Comments**

<b>Compulsory</b> REVISION comments	Reviewer's comment	<b>Author's Feedback</b> (Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	Postop pain management is complex and is a headache to perioperative physicians. Choice of analgesic in parturients depends upon lots of factors. Vitamin C is coming up as a good adjuvants to manage post operative pain.	
Is the title of the article suitable? (If not please suggest an alternative title)	<p style="text-align: center;">Study population is missing</p> <p style="text-align: center;">COMPARISON OF POST-OPERATIVE RESCUE ANALGESIA BETWEEN ANALGESICS ALONE AND ANALGESICS-ASCORBIC ACID REGIMEN IN PARTUIRENTS UNDERGOING CAESAREAN SECTION <b>UNDER SPINAL ANAESTHESIA</b> IN ABAKALIKI, SOUTH-EAST NIGERIA</p>	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	Needs to look upon few things? Please refer to attached file in tack change.	
Are subsections and structure of the manuscript appropriate?	Seems to be appropriate	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	Need to clarify few points: <ol style="list-style-type: none"> <li>1. Trail of comparative study</li> <li>2. If trial: trial registry number: I think it is prospective randomized comparative study</li> <li>3. Sampling? Systematic random sampling? More explanation needed</li> <li>4. Randomization process not mention properly</li> <li>5. Exclusion criteria not mentioned</li> <li>6. SPSS 26 version is paid??</li> </ol>	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	References are sufficient but only 8 references are of after 2019. Few more recent and relevant articles would be better.	
<b>Minor</b> REVISION comments  Is the language/English quality of the article suitable for scholarly communications?	Few grammatically corrections needed	
<b>Optional/General</b> comments	Satisfactory but few corrections/explanation needed  <b>SEE ATTACHMENT</b>	

**Review Form 3**

**PART 2:**
