

Editor's Comment:

I have reviewed the files referring to the work JERR 124472 with the first title as "Performance comparative analysis of PID and Sliding mode controller in speed control of Induction Motor Drive with intermittent loading", and as "Comparative Performance Analysis of PID and Sliding Mode Controllers in SpeedControl of Induction Motor Drives with Intermittent Loading" in the second version.

In my opinion, the authors of the article have satisfactorily addressed the changes suggested by the referees. Therefore, **the article can be published**. However, first they have to correct the referencing. In the text of the article, references in box parentheses must have an increasing sequence [1], [2], [3], ..., [37]. The references section at the end of the article, should be changed accordingly.
