

Review Form 3

Journal Name:	European Journal of Nutrition & Food Safety
Manuscript Number:	Ms_EJNFS_124187
Title of the Manuscript:	STUDIES ON OPTIMIZATION OF MILLET BASED MUFFINS AND EVALUATION OF ITS PHYSICOCHEMICAL CHARCTERISTICS DURING THE STORAGE PERIOD
Type of the Article	Research article

Review Form 3

PART 1: Review Comments

Compulsory REVISION comments	Reviewer's comment	Author's Feedback <i>(Please correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Please write a few sentences regarding the importance of this manuscript for the scientific community. Why do you like (or dislike) this manuscript? A minimum of 3-4 sentences may be required for this part.	The manuscript studies the enhancement of muffins quality by addition of different proportions of of millet	
Is the title of the article suitable? (If not please suggest an alternative title)	Alternative title: Physico-chemical characteristics of millet based muffins during storage	
Is the abstract of the article comprehensive? Do you suggest the addition (or deletion) of some points in this section? Please write your suggestions here.	No, it is not. Because it is poorly written. Suggestion: In describing the study you can say: "In the present study we have used three formulations of millet based muffins: S1 containing 10, 20 and 10% of pearl millet, finger millet and little millet flour respectively..."	
Are subsections and structure of the manuscript appropriate?	yes	
Please write a few sentences regarding the scientific correctness of this manuscript. Why do you think that this manuscript is scientifically robust and technically sound? A minimum of 3-4 sentences may be required for this part.	This is a topical topic, as it includes in the field of food quality	
Are the references sufficient and recent? If you have suggestions of additional references, please mention them in the review form.	-I suggest addition of some references in the discussion part	

Review Form 3

<p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p>	<p>Not much</p>	
<p>Optional/General comments</p>	<p>These comments should be taken into consideration:</p> <ul style="list-style-type: none"> - Reformulate the abstract so that it can be more comprehensive (See below on suggestion) - In materials and methods section, you have not talk about microbiologic analysis, FFA and Tyrosin value. This point should be appeared with the reference - Sensory evaluation does not have a reference - The reference AOAC should be appeared with the year in the manuscript and in the list of references - The style of writing references in the text is not correct - You say that you have done microbiologic and biochemical analysis only for the best sample (S1), but what I see is that you have done the analysis for all the samples! - The references: Ramya and Anitha (2020) and (Mishra et al.,2022) are not mentioned in the list of references - There are lot of editorial errors that should be corrected in the manuscript, they are highlighted in the article. Example: gramme is written g not gms, - I prefer say "Proximate composition" not "proximate analysis" - Self-life is written with the mark"-" - You should write the whole name of LDPE and FFA then the abbreviations between brackets when appeared in the first - The references are poorly written. They are not homogenous To be done again according to the system required by the journal <p>The attached file needs to be corrected</p>	

PART 2:

	<p>Reviewer's comment</p>	<p>Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</p>
<p>Are there ethical issues in this manuscript?</p>	<p><i>(If yes, Kindly please write down the ethical issues here in details)</i></p>
