**Review Form 3**

Minor REVISION comments		
<b>Is the language/English quality of the article suitable for scholarly communications?</b>	Yes	
<b>Optional/General</b> comments	Very nice study and I appreciate the fact of looking for the BSLE and also checking the quinolones. However, the results are not discussed and the other will have to add this part which will give us the extent of the same situation throughout the world. according to developed and undeveloped countries....; countries with an effective health system compared to countries that do not have it.... countries with an antibiotic management policy and RAMS surveillance and countries.....	

**PART 2:**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Are there ethical issues in this manuscript?</b>	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
