| <p>Minor REVISION comments</p> <p>Is the language/English quality of the article suitable for scholarly communications?</p> | | |
| <p><u>Optional/General</u> comments</p> | <p>The authors claimed that this review summarizes the of Advances in Anticancer Drug Discovery: Exploring the Untapped Potential of Natural Products for Targeted Therapies. However, this manuscript is not well organized and summarized such topics because of following reasons. The following problems are required to be considered and made corresponding solutions:</p> <ol style="list-style-type: none">1) Authors should carefully revise and corrected all the grammatical issues and follow the scientific norms in the whole manuscript. Please check the main text to improve the English level.2) The Abstract section is too general. Some more important information should be given and some unnecessary information can be moved to the Introduction section.3) The objectives and justification are not clearly stated.4) The introduction is very short. Please read and site more articles and update your introduction.5) Please draw Figure 1 from the reconstruction and with better quality.6) Please change all the Fig to the Figure.7) Please refer to Figure 1 in the text.8) Move the text below Figure 1 to the top of Figure 1.9) Add subtitle 1.1 to the introduction section.10) Bring Methodology after subtitle 1.2 and write it as a separate title.11) Please indicate the numbering of sub-titles and sub-titles in the entire text.12) Please rewrite the text on page 11 of the article.13) Please draw Figure 5 from the reconstruction and with better quality.14) Authors need to read more relevant papers that are highly cited or published in high-quality journals and make more in-depth discussions or comments.15) Increase the quality of figures.16). The difference between Recent progress and challenges17). Please use updated and recent papers in the literature review to give more sense to the reader.18) Please improve the conclusion. | |
